# 820-F28-DB

28" PLASTIC MEDIA CENTER CABINET

This feature-packed, 28-inch plastic media enclosure offers a stylish solution to organize and conceal wiring and networking equipment within residential and commercial premises.

Features:

- **Spacious Interior:** Ample room to house routers, modems, patch panels, Video/Audio Splitters, and other networking gear.

- **Flexible Door Design:** Reversible swing door allows for left or right-handed opening to fit the space.

- **Clean Finish:** Picture frame trim on the enclosure hides minor drywall imperfections for a professional look.

- **Cool and Collected:** Integrated ventilation holes promote airflow, preventing overheating of the equipment.
  Easy Cable Management: Multiple knockouts throughout the enclosure simplify cable entry and organization.

- **Safety First:** Flame-retardant and UV-resistant cover and frame ensure safe operation and protection from sunlight damage.

Benefits:

- **Declutter living space:** Say goodbye to messy cords and equipment with a designated enclosure.

- **Improved Signal Strength:** Reduce wireless interference with a non-metallic plastic construction.

- **Easy Installation:** Lightweight and pre-drilled for effortless mounting.

- **Long-lasting Durability:** High-quality plastic construction resists scratches and stains for years of use.
